

THE BLAIRMORE ENTERPRISE

VOL. XIII, NO. 48.

BLAIRMORE, ALBERTA, THURSDAY, NOVEMBER 30, 1922.

\$2.00 YEARLY

GRAND CONCERT TONIGHT

A rare treat is in store for music lovers in a grand concert to be staged tonight at the Greenhill Grill, in which Rev. Father Bolts, former organist of St. Augustin's Seminary, Toronto, and of late years teacher of piano at

St. Mary's College, Calgary, will be the principal, assisted by an array of local talent.

The programme starts promptly at 8.30 and the admission fee is 75 cents, which fee will admit to dance to follow the concert.

BAZAAR A SUCCESS

The bazaar held in the Oddfellows' hall on Tuesday, November 28, 29 and 30, by the ladies of St. Anne's church, was a decided success in every way.

At 2.15 p.m., Father Coleman formally opened the bazaar with a stirring address, in which he complimented the ladies for the wonderful array of fancy work they had on hand, and showed how he appreciated their hard work, worry and sacrifice in so doing.

The hall was beautifully decorated for the occasion, and the various tables were simply laden with beautiful articles.

The committee wish to thank most heartily all who patronized the bazaar and helped to make it such a huge success.

The drawing of the Tombola took place at 5 p.m., and the following were the lucky ticket holders:

Electric Cozy Glow—won by Mrs. D. R. McKay, Blairmore.

Cup-Glass Vase—won by Owen Morgan, of Blairmore.

Ten-Dollar Gold Piece—won by Master W. C. MacKenzie, Blairmore.

Ten-Dollar Gold Piece—won by A. Kubence, Michel, B. C.

Ten-Dollar Gold Piece—won by Joe M. Kanik, Blairmore.

Extra Prize, A Beautiful Cake, made by Mrs. R. Kidd—won by John Kometz, Natal, B. C.

The Big Doll was won by little Betty Bradley.

L. L. MORGAN IS
NEW PRESIDENT

At a meeting of the executive of the Blairmore Hockey Club held on Tuesday night, the resignation of Mr. W. H. Chappell as president was accepted. In his stead, Mr. L. L. Morgan has been chosen president and Mr. G. N. Elwin fills the office of vice-president made vacant through Mr. Morgan's advancement.

J. A. McDONALD IS DEPUTY MAYOR

The regular meeting of the town council was held on Monday night.

As the term of office of Owen Morgan as deputy-mayor had expired, the Council proceeded to elect a deputy-mayor for a period of three months, with the result of J. A. McDonald being chosen.

As Mayor McLeod was absent from town, Deputy-Mayor McDonald presided at the meeting.

The minutes of previous meeting were approved as read and the following accounts were passed for payment, subject to O.K. by committee: Blairmore Enterprise \$17.00, Inspection Blairmore Exchange \$17.00, Installation in police office \$5.50, J. Montabetti \$4.10, W. Wolstenholme \$7.00, Western Municipal News \$4.25, Provincial Dept. Public Health \$102.00, Workmen's Compensation Board \$21.75, Northern Electric Co. \$120.81, Canadian General Electric \$48.51, J. McLeod \$12.00, O. Malara \$14.00, T. Thompson \$10.00, G. Lang \$38.50, J. Howe \$38.50 and a number of petty cash accounts.

The accounts for insurance premiums were questioned, as the local agent happened to be Mayor McLeod, who by virtue of his office as mayor was not permitted to do business with the town.

A communication was received, announcing the 18th Annual Convention of the Union of Alberta Municipalities, to be held at Edmonton on the 14th and 15th of December, and asking that the town be represented. In this connection it was decided at once to remit to the secretary of Alberta Municipalities the annual membership fee of ten dollars and to forward a resolution bearing upon the proposed increase in minimum educational head tax. The secretary announced that he had petitioned some twenty municipalities that would be directly affected and had received reply from some of them acknowledging sympathy and assuring co-operation in the movement. Word was received from the cities to the effect that under their charters they were independent, and could take no action in the matter.

A communication from Crows' Nest Chapter of the Imperial Order of Daughters of the Empire, through their secretary, Mrs. H. Pinkney, was read. The town was informed that the site proposed for the Blairmore War Memorial was on the corner directly opposite the present Union Bank building. The secretary was asked to ascertain further information as to plan and estimated cost, etc.

A communication from the department of attorney-general, in reply to the town's request for return of portion of fines received from Blairmore, under the Alberta Liquor Act, stated that same would be forthcoming on receipt from the town of a sum amounting to about three thousand dollars claimed under the Widows' and Mothers' Allowance Act. The matter was referred to the town solicitor for advice.

Reports submitted from the various departments for the month of October showed a slight falling off in receipts as against expenditures in the water-works, electric light and police departments.

The council will in all likelihood elect a delegate at the next regular meeting to attend the convention at Edmonton, in support of resolution.

JUNIOR HOCKEY

A meeting for the purpose of formulating plans for the approaching season for the Crows' Nest Junior Hockey League was held here last week.

The election of officers resulted as follows:
President—Rev. Father McCormick, of Coleman.
First Vice-President—Rev. W. T. Young, of Blairmore.

Second Vice-President—J. J. McIntyre, of Bellevue.

Secretary-Treasurer—Fried Lees, of Coleman.

The league is composed of teams from Blairmore, Coleman and Bellevue, and give promise of producing a good brand of hockey.

Services will be held in the Anglican church at Blairmore on Sunday next as follows:

Morning at 11 a.m., followed by celebration of the Holy Communion.
Afternoon—Service of Baptism.
At 7.30 p.m.—Evensong.
Preacher—Rev. W. J. Merrick.

The Tobacco of Quality

Will Immigration Benefit Or Hurt?

Is it in the best interests of Canada that a new and far-reaching policy in regard to immigration be adopted and that vigorous action be taken to encourage a large influx of new settlers?

Or does Canada's interests rather lie in the direction of advertising to the world that it does not particularly welcome newcomers, and, instead of facilitating immigration, erect even higher barriers against, and impose greater restrictions upon, the entry of people into the Dominion?

People in Canada are divided into two groups on this important subject of immigration, with one group supporting the view set forth in the first paragraph above, and the other group advocating the policy outlined in the second paragraph.

Generally speaking, organized labor is outspoken against any really effective policy, and in this the artisan class has the support of clerks, small salaried men and women, laborers, etc. On the other hand, all the big transportation, financial, manufacturing and commercial interests are quite positive in declaring that if Canada is to grow and prosper it must abandon its policy of indifference. It indeed not opposition to immigration.

Are these opposing schools of thought on this question both actuated by nothing but selfishness, each considering their own particular interests only, and giving no consideration to the interests of others or the welfare of the country as a whole? Or are each of them honestly convinced of the soundness of the position they take? Or are such radically different and antagonistic opinions the result of honest convictions resulting from the divergent points of view from which the question is approached?

For example, is the artisan now in employment opposed to immigration because of a belief that with the incoming of more people his employment would be endangered, or his wages in danger of being lowered? And the man who is at present out of employment, is he fearful that incoming immigrants might get the work he hopes to secure, or failing to get work serve to swell the army of the unemployed and thus accentuate the difficulties under which he is at present laboring? In other words, are they thinking of the immediate present without taking a look forward to the permanent remedy of existing adverse conditions?

Are the transportation, financial, manufacturing and commercial interests thinking only of securing through immigration a larger body of men and women out of which they can select the employees they need, and, because of the larger number, at lower wages than now prevail? Is the farmer who, at a sale, favors an energetic immigration policy, merely looking for a hired man or a domestic? Or are these farmers and organized business interests really thinking and planning for more than the immediate present and seeking a solution of a situation which is now more or less stagnant?

It should not be considered selfishness for a man to seek to safeguard the position he now has, nor retain the standard of wages he now receives. It is not selfishness for the man out of employment to take a stand for conditions which he believes will assist him to secure the work he wants; nor is it selfishness for a farmer to endeavor to bring about conditions which will enable him to obtain needed assistance in his work and without which he is seriously crippled in his operations and the profits from his labor largely lost to him.

The question which calls for investigation and an answer is whether or not it is possible to develop a policy which, while meeting the admitted need of Canada for a larger population, and which will give to the farmer the labor he must have, and will result in the development of more business for the transportation systems, our factories, and commercial houses; will at the same time work no injury to workmen now in employment, and will create conditions resulting in work for more than the immediate present and which can be said to Canada, but for all those now here ready, willing and anxious to get work.

It is the belief of the writer of the articles on the subject of immigration now appearing in this column from week to week that there is a satisfactory answer to this question. In fact, it has been proven by past experience not only in Canada, but in the United States, that the policy of immigration already referred to are not antagonistic in reality although from a superficial glance they may appear so. But in view of the seeming antagonism it requires men of vision and courage to put legislative legislation into effect and develop that thoroughly business-like administration which will bring about the much to be desired results.

Better Times In Store

Grain Crop to Set the Wheels of Commerce in Motion

In their survey of conditions, A. E. Ames & Co., a well-known Canadian financial house says: "Our grain will equal, if not surpass, our previous records. The marketing of grain and other agricultural products will set in motion this year a golden stream that is estimated at approximately \$1,000,000,000. Better times are undoubtedly in store for every portion of our economical fabric. The betterment is bound to arrive in time the producer, the retailer, wholesaler, manufacturer and likewise our railroads and national enterprises."

1087 THE P

A Prosperous Nation

Future Well-Being of the Dominion is Assured

The truth is that Canada is a cozy corner of the world. We have our problems, and they are not light, but, compared with the difficulties of other nations, they are as nothing. In the light of the achievements of the past eight years, they cannot impose fear.

All that we require is reasonable sanity. If we can but guard against the intoxication which threatened us with weakness in pre-war days, can adhere to realities and cut our financial coat to suit our financial cloth, our future prosperity is assured—Ottawa Journal.

Man vs. Woman

A well-known literary man had been asked to propose the toast of "Destitute Woman."

He spoke with patronizing condescension—a rather dangerous thing to do.

"When he had done the toast-master called upon a dainty little lady to answer by proposing the toast of 'Mere Man.'"

She arose and began demurely: "Ladies and gentlemen: Man is but they to the hands of a woman—and she generally makes a use of him!"

France Will Honor
Taxicab War Fleet

Presenting Most Disappointed Marine Veterans in Invincible Museum

"The Veterans of the Marine," that fleet of old-fashioned, informal, two-wheeled taxicabs that have been cruising the streets of Paris for seventeen years are to be signally honored by the Ministry of War for the decisive part they played in the historic battle which saved Paris.

The oldest, most dilapidated taxi to be solemnly escorted by a body of veteran chauffeurs to the Invalides war museum, where it will be given a prominent place among the relics.

These ancient red cabs, which are regarded by visiting Americans as great curiosities, still rush around Paris day and night in rain or shine, at breakneck speed, their progress being marked by a terrible rattle, but they are rapidly being replaced by modern cars.

It was in these machines that, at the critical stage of the battle of the Marne, Gen. Gallieni sent 6,000 fresh troops from Paris almost to the actual fighting area, where the French left wing was seriously threatened. The chauffeurs, who were all too old to fight, were conscripted as they drove along the streets. Their passengers were ordered out and at least five soldiers were put aboard each cab and started for the front. The taxis drove back and forth for two days and nights, supplying fresh troops to stop the German drive on the capital.

Sciatica's Pain Relieved
Quickly By Nerviline

In bringing quick relief to the sciatic sufferer, the best remedy in frequent applications of Nerviline. Thousands have proved its success. Nerviline penetrates deeply, every drop rubs right in. The irritated nerves are soothed and the pain goes away. Wherever there is Rheumatism, Neuralgia, Lumbago or Muscular Pain, the quickest relief always comes from the use of Nerviline, 55¢ at all dealers.

Head-Scratching a Ridiculous

Pharmacologists have never satisfactorily accounted for the fact that when a man is puzzled he scratches his head.

GUARD THE CHILDREN
FROM AUTUMN COLDS

The Fall is the most severe season of the year for colds—one day warm, the next cold and wet, and unless the mother is on her guard, the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mother's best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose of the Tablets will prevent colds, or if it does come on suddenly their prompt use will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Hockleyville, Ont.

Burnese celebrate the new year by throwing water on each other and also on passersby.

Simple and Sure—Dr. Thomas' Eclectic Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old.

The trouble with the average author is that some other fellow publishes his idea before he has time to think of them.

SASKATCHEWAN
WOMAN
RECOVERS
Found Health by Taking
Lydia E. Pinkham's Vegetable Compound

Melval, Saskatchewan—"I saw Lydia E. Pinkham's Vegetable Compound advertised for women's troubles and when a friend recommended it to me I tried it. It has done so much good in the two years I find I am a different woman since then. I recommend your Vegetable Compound as much as I can and you may use my letter as a testimonial."

—Mrs. Wm. J. Thomas, Melval, Saskatchewan. These letters recommending Lydia E. Pinkham's Vegetable Compound ought to convince women of the great worth of this medicine in the treatment of ailments to which they are often subjected.

Mrs. Thomas writes that she is a different woman now. "If you are suffering from troubles women often have, or feel all run down, without any ambition or energy for your regular work, take Lydia E. Pinkham's Vegetable Compound. It is a natural restorative and should help you to get on with your life. Many a woman has been helped quickly and surely by this medicine."

This medicine has been helping sick women nearly fifty years—surely a long record of service.

Grows Figs In Ontario
Hamilton Man Says Figs Can Be
Grown for Commercial Purposes

In Canada. Upon results which have attended his efforts in the past two years, John Fleet, of Hamilton, has come to the conclusion that figs can be grown for commercial purposes in Canada. Mr. Fleet, a well-known organizer for the American Federation of Labor, has grown a second crop of figs to support his claim.

"During the war I planted a fig tree and gave it no more attention. By last year the tree was six or eight feet in height and yielded a peck of figs," he says. "The figs were larger than any I have seen in the United States, even the most southern parts, and they were perfect for domestic purposes."

Dyed A Sweater
And Skirt With
Diamond Dyes

Every "Diamond Dyes" package tells how to dye or tint any worn, faded garment or dress in new rich color that will not streak, soil, fade, or run. Perfect home dyeing is guaranteed with "Diamond Dyes." You have never dyed before. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. For fifty years millions of women have been using "Diamond Dyes" to add years of wear to their old, shabby waists, skirts, dresses, blouses, stockings, draperies, hangings, everything!

B.C. Lumber Industry
Payroll for Lumber Industry in Province Will Run Over Twenty Million

British Columbia's payroll for the lumber industry in 1925 will run over \$20,000,000, according to officials of the Provincial Government, who have based their calculations on returns from 532 firms, whose statistics show that in 1925 the payroll amounted to \$18,190,962, with an average number of wage earners of 14,500. The general resumption of building operations, followed by an increasing demand for lumber, has had the result this year of speeding up the industry. Many plants that were idle have resumed operations, and even those which kept going all the time through 1924 have increased their staffs. It is confidently expected that this year will show a big increase over 1924, and the \$20,000,000 mark is said to be on the conservative side.

An Atmospheric Defect

Lock of Moisture Detrimental to Both Plants and Humans

The drying up of the tips of leaves of house plants is a sign of too scant moisture in the atmosphere. "This is quite common trouble during the winter in steam-heated buildings. One of the plants which will most quickly show this trouble is the ornamental asparagus, asparagus plumosus, or 'asparagus fern' as it is often wrongly named. It is well to remember also that such an atmospheric condition is detrimental to the health of people, and that where it prevails it would be well to provide some means of evaporating or otherwise increasing humidity."

During the American Civil War 20,150 Union and 20,152 Confederate soldiers died prisoners of war.

Mina's Liniment For Colds, Etc.

Many Queer Animals
For New York Zoo

Strange Creatures Found in Santa Domingo By Dr. Noble

Frogs that bark like dogs, equal like pigs and are born frogs instead of tadpoles were discovered in the jungles of the island of Santo Domingo by Dr. and Mrs. G. Kingsley Noble of the American Museum of Natural History, New York, who have just returned from a three-months expedition through the island.

And just to prove that the frog with the dog-like voice is not a tropical dream, they brought several live specimens with them and have them in the museum at 77th Street and Central Park West. Details of the successful expedition were made known recently.

Then too they brought back giant tree frogs, the largest known in the world. These frogs have some long technical name, but a more descriptive one would be "poison ivy." When touched they exude a milky substance that irritates the hands and causes inflammation similar to poison ivy.

Rhinoceros iguanas that look like direct, pocket edition descendants of the pre-historic dinosaurs also came along in cages and they have about in room on the second floor of the museum building.

The Nobles went to Santo Domingo in July. They traversed the whole island. Dr. Noble is in charge of the Reptile Department of the Museum and Mrs. Noble holds an official position there.

STOMACH MISERY,
GAS, INDIGESTION

"Pape's Diapiesin" Corrects Sour, Upset Stomachs At Once

"Pape's Diapiesin" is the quickest, surest relief for indigestion, gases, flatulency, heartburn, sourness, fermentation or stomach distress caused by acidity. A few tablets give almost immediate stomach relief. "Correct your stomach and digestion now for a few cents. Druggists sell millions of packages."

Hammocks are supposed to have evolved their name from the fact that the natives of Brazil used the bark of the hammock tree for nets in which to sleep.

As a verminicide an excellent preparation is Mother Gray's Hair Restorer. It has saved the lives of countless children.

Leaves of the Bussu palm on the Amazon grow to a length of 35 feet though the stem reaches but 15.

Never varies—Always the same fine flavor and freshness of taste—Do you wonder so many people use it?

Communist Member Disturbs Tranquility Of House Of Commons

London.—A storm of criticism, satire and threats of revolution disturbed the tranquillity of the new Government at the first working session in the House of Commons. The new members quickly asserted themselves with firmness and shocked the veterans, with the result that there was laughter, also glances and jeers, with frequent cries for order. Interruptions, retorts and clamor from the benches produced an aspect in the ancient house that was radically different, and the Government was repeatedly warned that there will be no "tranquillity."

"If we do not get satisfaction we shall have to deal with you as Cromwell dealt with his predecessors—there is plenty of precedent to a revolution in this country," dramatically declared J. T. W. Newbold, the Communist member. He came to his feet and presented his astonishing case with the fearlessness of an old parliamentarian.

The tall, pale, but keen-eyed follower of the doctrine of Lenin was a subject of curiosity and interest as he faced the house in his seedy, ill-fitting clothes, but he quickly stirred up the most philosophical and had to be warned by the speaker. He launched his attack because, he said, the workers were not satisfied with the attitude regarding unemployment.

"If you wish to challenge us, we shall be compelled to take up the challenge," he said. "I say with all the gravity I can that we do not desire to take it up if we can help it." He said the jobless demanded 30 shillings a week for a man and wife an amount for rent up to 15 shillings. If necessary, adding: "And we are going to get it. If we don't, we'll go inside this chamber, we shall get it outside of this chamber."

This was greeted with laughter by the Government side, whereupon Newbold said: "You may laugh, gentlemen of England; you may laugh today, gentlemen of Scotland; but we laugh best who laugh last."

No Need to Worry

Nothing to Indicate Embargo Will Not Be Lifted This Session

Ottawa.—Neither Hon. W. R. Motherwell nor any other official of the Department of Agriculture has received any intimation that the legislation for removal of the embargo against Canadian cattle will not be introduced during the present session of the British Parliament. It was stated at the department, in reply to questions based upon a cable report that the bill would not be proceeded with.

Duncan Marshall, of the Department of Agriculture, remained in London when the other members of Canada's delegation left for home, in order to keep in touch with developments and inform the Government here if there was to be any delay from the programme laid down during the recent conferences. Thus far no hint has been received either from Mr. Marshall or the High Commissioner's Office of the plans of the British Government having been changed in regard to bringing down the bill and providing for removal of the embargo as agreed to.

Gen. Harington Issues Warning To Turks To Keep The Peace

Constantinople.—Lieut. Gen. Harington, commander of the Allied forces here, has issued a stern warning to the Kemalists that any further encroachments upon Constantinople would be at their peril. Addressing a large gathering assembled to witness boxing bouts between British soldiers and sailors at the auditorium of the British headquarters, he declared that the Allied forces in Constantinople were a rock marked "dangerous," upon which the Turks would

Shave Military Costs

U.S. Military Expenses Far Exceeds Canada's, Ottawa Statement Says

Ottawa.—Canada's expenditure per capita on military activities will be \$1.50 compared with an expenditure of \$14 per head for similar purposes in the United States. Canada, trained 27,234 men this year to November 1.

These figures were given in an official statement obtained from the Department of Militia and Defence, the statement goes on to say: "Quite recently the United States Secretary of War made a public statement that Canada trained 100,000 men during the past summer. According to the figures available the exact number trained appears to be 27,234 all ranks, as at November 1, 1923."

"In this connection it should be remembered that the United States maintains a standing army of over 150,000 men all ranks. Canada, on the other hand, has no standing army but only a small permanent force of instructors numbering less than 4,000."

"The best methods of saving the military activities of the two countries in matters of defence, is by comparing their annual expenditure. That of Canada during the present year will be approximately \$1.50 per capita, that of the United States, so far as can be ascertained at present will be in the neighborhood of \$14 per capita."

HUSBAND DIDN'T DARE LEAVE HER ALONE HEART WAS SO BAD

Those feelings of fatigues, those dizzy spells, the aching sinking sensations which come on from time to time indicate a weakened condition of the heart and a disordered state of the nerves.

MILBURN'S

HEART AND NERVE PILLS

have no equal as a remedy to strengthen the heart, invigorate the nerves and build up the run-down system. Mrs. C. Vanhorn, Eckville, Alta., writes:—"About a year ago I had heart trouble. My husband didn't dare leave me alone, and often had to stay up at night with me. I would just feel kind of faint and dizzy and would seem to stop beating. It would just faint away, and it would sometimes be a hour before I could bring me back to life. Someone told me about Milburn's Heart and Nerve Pills. I got three boxes. I took them and felt much better, so continued all winter, and now I never feel any such faintness. I surely do appreciate the good they have done for me."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co. Limited, Toronto, Ont.

Increase License Motor Fees

Toronto.—A report came from the Parliament Buildings that a levy of \$1 will be placed on all motorists in addition to the regular license fee in 1923. The dollar will bring in a revenue of \$250,000, which will pay for the markers and all administration expenses. It is also understood that the license fees imposed on heavy trucks will be increased.

Prince Waives Precedence

Disregarded Rights to Which He is Entitled as Heir to the Throne

London.—The House of Lords was treated to an interesting spectacle when the Prince of Wales, who outranks all the Lords, smilingly disregarded precedence by waiving the rights to which he is entitled as heir to the throne.

When the Prince arrived to take the oath as a member of the new Parliament, he found a queue of some 50 "noble lords" lined up ahead of him. The Clerk of the House immediately hurried to the Prince to conduct him to the head of the line, but the scion of royalty shook his hand and retained his place at the end of the line.

There was no consternation on the faces of some of the lords, and several offered the Prince their places in the line, but he smilingly declined and waited his turn, which was long in coming.

"Cascarets" 10c

Best Bowel Laxative
When Bilious,
Constipated

To clean out your bowels without cramping or overacting, take Cascarets. Sick headache, biliousness, gases indigestion, sour, upset stomach and all such distress gone by morning. Nicest physic on earth for grown-ups and children. 10c a box. Taste like candy.

B.C. May Deprive Japs Of Fishing Rights

Federal Fisheries Commission Want Licenses to Orientals Reduced

Vancouver.—On a thousand and forty-two Japanese fishing licenses holders and their crews will be deprived of the right to fish in British Columbia waters, if the recommendation of the Federal Fisheries Commission to the Minister of Marine and Fisheries in Ottawa, is accepted. The commission recommended that licenses to Orientals be reduced by 40 per cent. This year licenses were issued to 2,606 Japanese.

Negroes Warned to Leave

Athens, Ga.—Two hundred negroes and 10 white farmers of Oconee county held a mass meeting, according to reports published here, after notices were posted on several negro churches and lodge rooms Sunday, warning the negroes to leave before the end of the year. The negroes at the meeting adopted a resolution declaring confidence in the "law-abiding white citizens of our country, and further, that we will not be driven from our homes by white people whom we know to be our friends without first giving them an opportunity of protecting us."

It pays to patronize home industry. Buy from the merchants in your own town.

The Poor West

Montrealer Claims Western Provinces Are "I.O.U." Areas

Montreal.—The prairie provinces are nothing but "I.O.U. provinces," in a lamentable state financially, declared Oliver Asseline, the well-known French-Canadian publicist, in addressing the Chambre de Commerce here.

The French-Canadian race was, collectively speaking, a wealthy one, while the province of Quebec stood highest financially of any in Canada, he said. Their chief wealth was in the agricultural and real property of the province.

MOTHER!

Move Child's Bowels with
"California Fig Syrup"

Hurry mother! Even a sick child loves the "fruit" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Denver.—Compulsory vaccination in Denver, as a preventative of smallpox, prevalent here for several weeks, was declared in effect.

Clemenceau's Utterances Subject Of Criticism In U. S. Senate Debate

Washington.—The utterances of former Premier Clemenceau of France came under fire on the floor of the Senate in a debate reviving many of the issues of the Versailles treaty fight.

Discussion of the mission of the French war-time premier to the United States was begun by Senator Hitchcock, of Nebraska, ranking Democrat, of the foreign relations committee, and the Wilson administration leader during the treaty debate, with a speech declaring that Clemenceau's attitude toward Germany had been such as to detract somewhat from the effectiveness of his appeals to the people of the United States.

"While Clemenceau has not been known as an extreme militarist, as compared with Poincare and some

other statesmen," said Senator Hitchcock, "he has established a reputation for instituting an entirely harsh policy toward Germany."

The Nebraska Senator added that his purpose was not so much to criticize Clemenceau, but rather the policy of the French Government toward Germany.

London.—The 18-month-old baby, which was swept through nearly half a mile of a Croydon sewer, is recovering quickly in hospital, and any danger of septic pneumonia is now passed.

Close Export Houses

Ottawa.—The order-in-council closing the export liquor warehouses of Saskatchewan on December 15 has been officially gazetted.

U. F. A. Ask For Federal Inquiry Into Rural Credit System

Calgary.—Demands that the Federal Parliament, at the next session, institute a searching public inquiry into the basis, function and control of the financial credit system, and the relation of credit to production and distribution, were embodied in a resolution unanimously endorsed at the annual convention of the East and West Calgary U.F.A.

The resolution further asked that whatever amendments are made to the Canada Bank Act, the act should be left open for further revision, as it pointed out, the bankers had engaged the most competent legal talent to present their case, whereas the farmers practically were unprepared. That the inquiry proposed be held publicly was another demand.

Denunciation of the liquor squad enforcing the Alberta Liquor Act was voiced by Irlana local, which demanded that the squad be abolished or made effective.

The convention further to take a stand upon the agitation to have the Bible read in Alberta schools, although H. W. Wood and several delegates commented favorably on the proposal.

"The plank of democracy is beating the fruit of autocracy," said President Wood in an address to the delegates. "You have democratic machinery at the bottom, with autocratic tendencies at the top. The result is a conflict in the U.F.A. movement, for you claim the inalienable right to carry on your own democracy, while your elected representatives at the top are forming political machinery."

"Thus is formed a political party in the old sense, with all its accruing

evils. It will be impossible for this to function, and inevitably, division means failure. This, I believe, is the crux of the whole situation upon which your whole organization depends."

Why Not Give to Your Child The Treatment Your Mother Gave You

It is just as effective as ever in relieving coughs and colds, and still holds first place as the most popular of cough medicines.

Colds and Bronchitis

Mrs. Chris Dresser, Bayfield, Ont., writes: "We have used Dr. Chase's Linseed and Turpentine in our household for some time, and have always received good results. I have used it for my children as well as for myself for colds and bronchitis, and we find it gives immediate relief. Three bottles of this medicine once relieved me of an obstinate cold when doctor's medicine had failed. I cannot speak too highly of Dr. Chase's Linseed and Turpentine, and would not be without it in the house. If you can make any use of this letter you are at liberty to do so."

Asthma

Mr. Thomas Bond, Sheldrake, North Shore, Que., writes:—"I suffered for years with asthma, sometimes being unable to lie in bed, but after a treatment of Dr. Chase's Linseed and Turpentine, I am now quite well and thank this medicine for restoring me."

Dr. Chase's Syrup of Linseed and Turpentine

Trial size 35c. a bottle. Family size, three times as much, 75c. All dealers and Edmanston, Bates & Co., Ltd., Toronto.

WHAT AMERICANS PAY

FOR MOTOR CARS

"How many know that with the ex-
 ception of clothing and meat, we Am-
 ericans spend more on automobiles
 than any other single item," says
 Detroit "Saturday Night." "Here
 are some yearly bills indicating this
 country's expenditure:

Motor vehicles \$7,000,000,000
 Railroad transportation 5,500,000,000
 Shelter 4,500,000,000
 Fuel and light 2,850,000,000
 Bread and bread-stuffs 2,400,000,000

"Before the war we were spending
 \$1 out of every \$32 of income in
 automobiles. Today we are spending
 \$1 out of every \$7. Figure how
 much further we can go and you
 have the answer to the much dis-
 cussed automobile 'saturation point!'
 This should be of great interest to
 motor car manufacturers."

In attempting to solve this prob-
 lem of "how much further we can go"
 Americans and Canadians would do
 well to approach the matter from the
 industrial point of view. There is
 room for further development that
 way?

AMERICAN VIEW OF WAR DEBT REPAYMENT

Infatigable the interest inspired in
 the United States by the address on
 international debts delivered to the
 American Bankers' Association by Mr.
 McKenna, chairman of the London
 Joint City and Midland Bank, the
 New York Trust Company is distribu-
 ting more than 36,000 copies of the
 address to bankers. In an introduc-
 tory note Harvey D. Gibson, presi-
 dent of the Company, says that Mr.
 McKenna's remarks are recommended
 for perusal by all who would enlarge
 their understanding of the economic
 and financial aspects of the problems
 involved in the international debts,
 in which the German reparations are
 an essential factor. Two statements
 made by Mr. McKenna serve to epi-
 tomize on the one hand the disastrous
 results that would follow repayment
 of the international debt, even if it
 were practicable, and on the other
 they indicate the impossibility of ad-
 justing the debt to the United States
 upon the conditions and under the lim-
 itations imposed by the Congress
 when it created the Allied Debt Com-
 mission to deal with this problem.

NEW HIGHWAY COMPLETED

The remaining link of the Domini-
 on Government highway across the
 Rockies from Lake Louise into Brit-
 ish Columbia via Windermere, has
 practically been completed. This will
 make it possible next summer for
 tourists to make the complete trip
 from the States through Alberta and
 down into California by way of Banff
 and Lake Louise.

CANADIAN STORE CATTLE

The conditions for the importation
 of Canadian store and breeding cattle
 are embodied in an agreement which
 has been ratified by the new Cab-
 inet and by the Prime Minister of
 Canada.

The conference of British and Can-
 adian representatives which agreed to
 these conditions assented to the view
 that legislation on this subject cannot
 be limited to Canada, but must be
 capable of adaptation to the require-
 ments of the other parts of the Em-
 pire.

The conditions for store cattle are:
 1. The shipment must be from a
 Canadian port and direct to a port in
 Great Britain.

2. For three days immediately be-
 fore shipment and during the voyage
 the animals are to be kept separate
 from other animals and periodically
 examined by a veterinary officer of
 the Dominion. A thorough examina-
 tion immediately before is to be made
 by the Dominion veterinary officer,
 who will certify that the animals are
 not affected with cattle plague, pleuro
 pneumonia, foot-and-mouth disease or
 mange. During the voyage the ex-
 amination is to be made daily.

3. The animals are to be landed
 at specified landing places and there
 thoroughly examined by the Minis-
 try's veterinary officer. Movement
 from the landing place is to be con-
 trolled by license in the same manner
 as the movement of imported Irish
 cattle at present.

The agreement provides that the
 vessels shall not be capable of receiv-
 ing the cargo and also provide for
 effective action if disease should be
 found in a cargo.

Breeding Animals

The landing of Canadian cattle ca-
 pable of breeding will require the
 authority of a general order which
 will be made by the Minister of Agri-
 culture and laid in draft before both
 Houses of Parliament for thirty days
 and if either House presents an ad-
 dress to the King against the draft
 or any other part of it no further pro-
 ceedings will be taken.

The animals must be accompanied
 by a certificate by the authorized of-
 ficer of the Dominion stating that
 they have been within one month be-
 fore shipment tested for and found
 free from tuberculosis, and the Min-
 ister is given the fullest discretion as
 to the precautions to be enforced a-
 gainst the introduction of other dis-
 eases by these animals.

The Minister is to retain the power
 to suspend importation of store
 and breeding cattle of plague,
 pleuro-pneumonia, or foot-and-mouth
 disease should appear in Canada.

A fee not exceeding 6d. an animal
 is to be imposed on all imported ani-
 mals, and compensation is not pay-
 able in case of slaughter at the place
 of landing in consequence of disease
 being discovered. For administrative
 purposes imported animals are to be
 tagged or otherwise marked.

The Canadian Ministers at the con-
 ference undertook that as soon as the
 necessary order authorizing importation
 of Canadian breeding cattle is in
 force, the Canadian Government will
 modify their conditions of importation
 of British animals so as to make
 the Canadian and British conditions
 reciprocal.—Manchester Guardian.

TURKEY-KILLING BEES

Turkey-killing bees will be held in
 Southern Alberta again this year,
 under the auspices of the Dominion
 and Provincial Poultry Departments,
 the turkeys to be marketed through
 the co-operative marketing service,
 as was done last year, when a prem-
 ium was obtained for farmers partici-
 pating, over the regular market price.

MINES INSPECTOR SHAW

MEETS DEATH AT COALSPOUR

People of this district were shocked
 to learn of the death of William Shaw,
 former mine inspector, in this dis-
 trict, but later in the Calgary and
 Edmonton fields.

Mr. Shaw, from what can be gleaned,
 together with Manager Roberts,
 of the Yellowhead mine, and Hiram
 Davis, a miner, went into a smouldering
 mine unmasked, to ascertain
 whether it was safe for the miners to
 enter and continue work of loading
 off the fire. When another miner
 entered the mine shortly afterward
 he found the three men had succumbed
 to the gas. They were brought
 out by a rescue party and medical as-
 sistance called, but found that it was
 too late.

Mr. Shaw was very favorably
 known throughout this district and
 the sympathy of all goes out to his
 bereaved wife and family.

TELLER HAD NERVE

He Turned Tables on Bank Robber in Montreal.

Faced by a bandit with a revolver,
 and a demand to hand over \$10,000, C.
 H. Morrow, formerly of Parry Sound,
 paying teller of the Sterling Bank at
 120 James St., Montreal, by presence
 of mind and quick action turned
 the tables on the bandit, who bolted
 without getting a cent. Walking up
 to the wicket of the paying teller's
 cage, the would-be robber presented
 for payment an old and crumpled bank
 cheque on which was written "If you
 make one move or shout before I get
 to the door I will shoot to kill. Give
 me one hundred tens." He pointed a
 revolver at Morrow, the weapon be-
 ing wrapped in a handkerchief, with
 only the muzzle showing. Morrow
 said: "I have not got that many tens
 here, but I have the amount in ones
 and twos." "Give me those," said
 the bandit in a low voice. Morrow
 began counting the bills and when he
 saw that the bandit's attention was
 directed to the pile of bills he sud-
 denly dropped behind the counter, seized
 his revolver and again facing the bandit,
 fired two shots, which did some
 damage to the premises.

CIVIL SERVANTS MEET

Civil servants of Alberta met in
 annual convention at Edmonton the
 latter part of last week, delegates be-
 ing present from all branches in the
 province. President Daniel Dyer pre-
 sided, and in his address stated that
 a new civil servants act was being
 drafted for discussion by the associa-
 tion. He also expressed the general
 satisfaction felt by the association
 with the new superannuation scheme
 put into operation this year by the
 government.

A FEW NOTES WORTH

REMEMBERING

It does not take a prophet to tell the
 future of a young man who loves the
 "chickens" of gay plumage.

The following was found in a Scots-
 man's diary: The only way to save
 money is to have good health and a
 poor appetite.

We insulted a newly-married friend
 one time by sending him "Paradise
 Lost."

Methinks Heaven's products are
 sent to Toronto's churches duty free,
 and that hypocrisy's foundation is
 built there at considerable cost to the
 outside world.

Every church is going the wrong
 way, according to the other's notion,
 but still they are riding to God knows
 where.

Any man found in possession of a
 lady who uses powder, paints, wash-
 es, chalks and cosmetics should be ar-
 rested for aiding and abetting the
 making of counterfeit goods.

Hermits, monks, old maids and bach-
 elors at the age of forty should be
 incarcerated for refusing to obey the
 dictates of nature.

A bachelor is generally as fat as
 a hog and three times as stupid—
 local stock excepted.

CLARESHOLM WINS IN HIGH SCHOOL DEBATE

The debate between representatives
 of Hillcrest and Clareholm high
 schools, conducted under the depart-
 ment of extension of the University
 of Alberta, on the subject of "Resolv-
 ed: that Chinese and Japanese im-
 migrants should be excluded from Can-
 ada," resulted in a win for Clare-
 holm team.

The Hillcrest representatives were,
 Miss Alice Taylor and Mr. Donald
 Grant, while Misses K. Holmes and E.
 Strangway represented Clareholm.

The first meet was held at Hillcrest
 when Miss Helen Brown and Mr. G.
 Sharples appeared for the affirma-
 tive.

Great interest is being shown in
 these debates.

COMPLETE GAP OF RAILWAY LINE

The remaining gap of twenty-five
 miles in the branch line of the Cana-
 dian Pacific Railway, Foremost-Leth-
 bridge-Weyburn line, is now about
 completed and will be in operation
 after December 1, giving through
 connection between Lethbridge and
 Weyburn. A tri-weekly service will
 be put in effect.

A "chew" of Wrigley's gum,
 spearmint, left at our office, may
 be had on claimant paying for
 this notice. The owner is known,
 having been identified by the
 footprints.

Canadian Winter Climate Big Factor In Producing Best Wheat In The World

With the approach of winter months, once again arises in foreign publications arguments and opinions as to the desirability or disadvantages of Canada's climate.

We who live in Canada are quite satisfied with our winter climate; we know it is both desirable and advantageous, and that without it we could not hope to raise the finest hard wheat in the world and the splendid crop of sturdy, healthy, young men and women. Farmers know that bracing cold weather puts bone and muscle, fat and hide on their cattle, lumbermen and trappers that snow solves their transportation problem; while to the lover of outdoor sports, winter time in Canada is a season to be anticipated. Finally, vital statistics bear out the fact that nowhere in the world will a healthier class of children be found than in the younger generations is the very best indication of the advantages of the climate.

"In a very eloquent article on Canada in the October issue of the International Bulletin published by the International Institute of Economics of New York, one of Canada's great drawbacks is stated to be the climate. 'Cosmopolis,' who writes the article, says:

"Canada's chief disadvantages is that her farther northern climate renders her products less diversified than America's—by which he means, of course, the United States—and grips great areas in towns that forever bar cultivation of them."

On the face of it, this would seem to be fact, but it would be difficult to convince Stefanoff and other recent northern explorers of this fact. "For ever," as applied to the conditions of living conditions in Canada is a doubtful word, for, as time goes on, conditions in Canada change, and with further northward invasions and colonization the so-called Arctic climate is being driven farther north. Any one who has read Stefanoff's article of climate in the February, 1923, World's Work, "The Livable North," the following quotation will be familiar: to those who have not read it, it will be of interest.

"Before quoting from that article, however, let us just point out that this question of excessive Arctic climate and unproductive northern areas is fast losing its foundation. Settlement in the Peace River country, in Northern Ontario and in Quebec is going on apace, and areas that, like the northwest, were once considered uninhabitable and uncultivable, are now proving desirable and productive. Back in the early nineties, 'what grown a thousand miles north of the international boundary took first prize at the Chicago International Exhibition, since when settlement in that area has been steady and expansive. When Canada is possessed of a population of eight million millions, instead of eight as at present, this question of uncultivable northern areas owing to excessive climate, will have faded just in the same way as the question of the fertility and livability of the northwest faded with the passage of time. But let Stefanoff speak for himself:

"We have pointed out that the growth of grass and other plants is measured not by the length of the summer in months, but by the number of hours of sunlight, and that there are as many hours of sunlight in three months of Arctic summer as in six months of tropic summer; giving the plants, therefore, in reality, twice as long a growing time as the barometer assumes them to have. This is one of the fundamental considerations which explain the universality and luxuriance of vegetation in the north that is always so startling to the traveler who goes north with a mind furnished with ideas derived from school geographies."

"It seems to be light rather than heat that makes a plant grow fast. But if it were heat, the polar plants would not be so hardy. A fair sized mathematical calculation shows that from the first week of June to the second week of July, the earth at sea level receives from the sun more heat per square mile per day, at the North Pole than the Equator. In the mountainous regions, such as Greenland, there is left over from winter, stored snow to counterbalance locally this tremendous downpour of heat; but on the far more extensive polar low-lands of Siberia, Canada, Alaska and the Canadian Arctic islands, there is no snow—no snow to temper the summer heat, which explains the shorter travel time for those regions left to the unbearable sweaters of the Arctic summer and explains such weather records as 100 degrees in the shade at Fort Yukon, Alaska.

"The speeches in Parliament of Sir Edward Clarke and others are now

classic in Canada and are there the best known examples of unconscious humor. "The English language was taxed to its capacity in showing the absurdity of the building of the Canadian Pacific Railway. The argument said in substance that the expense of building the road would be so great that even were it to accept the most optimistic view of what the resources of the prairie provinces might develop into, even so a reasonable freight tariff for carrying them to the Atlantic would never pay for the whole cost of the freight cars. Opponents of the road were willing to concede that if anybody had the incredible folly to squander that much money the road could be built. They admitted further, that it could not be operated in summer, but submitted that it was proper to suppose that it could be operated in winter, and there followed the self-evident conclusion that the railway could never be profitable, for 'no enterprise can be profitable if it is operated only half the year.'"

How Bank of England Received Nickname

Old Lady of Threadneedle Street Was Real Person
In explanation of the nickname for the Bank of England, a pathetic story is told by Sir William Trevelyan. In the early part of last century there were several people in the city who were famous for their curious attire, and each had his or her nickname. For instance, there were the "Green Man" and the "Lady in Black." There was also the "White Lady of Threadneedle Street," who was a regular visitor to the Bank of England. She was the sister of a poor young clerk who had forged the signature to a transfer warrant. For this crime he was hanged in 1809. His sister was a needleworker for an army contractor, and lived with an old aunt and her brother in the city. Her mind became afflicted at her brother's disgraceful death, and every day afterwards she would go to the Bank and walk up to the pay counter. "My brother, Mr. Frederick, here today!" she would say, and the clerk in answer was: "No, miss, not today." She never stayed more than five minutes, and invariably her last words were: "Give my love to him when he returns. I will call tomorrow." If time the policeman became a favorite with the old lady to the Bank itself, and as the Old Lady of Threadneedle Street it has since been known.

Patience In Fruit Culture

Time Required to Popularize a New Variety of Apple
The Dominion Horticulturist gives the following as the stages regarding time through which a variety of apple must pass from the sowing of the seed until it becomes a popular sort. From sowing seed to planting trees in fruiting rows, 3 years; from planting to bearing 5 years; from bearing to obtaining a variety of fruit, 6 years; from propagation to planting in orchard, 3 years; from planting propagated trees in orchard to fruiting of the same, 6 years; if approved by nurseryman, time for nurseries to obtain a stock for sale 2 years; from time of sale until trees are in full bearing in fruit orchard, 10 years; to popularize fruit after it is available, 5 years. This makes a period of forty years in all which surely indicates the great patience that is required for the marketing production of a good apple.

Rig Game Increasing

Wild Life of All Kinds in Kootenay National Park
The astonishing manner in which wild animals respond to sanctuary protection is shown by the increase in wild life of all kinds in the Kootenay National Park. Kootenay Park is the new area in British Columbia recently reserved along the route of the new transcontinental motor highway from the Vermilion Summit to the Windermere Valley. The district is practically virgin country and was naturally a home for big game, which, since the creation of the park and the establishment of rigid protection, has increased to such numbers that it promises to form one of the greatest attractions to motorists when the road is opened next spring. Wild deer, goats, black and brown bears, sheep, moose and caribou are all seen by the passing tourist along the road or on the adjacent slopes.

In Luxembourg there is a penalty for eligible voters who do not vote at elections.

Our Versatile Prince

Readiness to Adapt Himself to Any Circumstances Increases Popularity

His Royal Highness the Prince of Wales plays many important parts in his position as heir-apparent to the throne of Great Britain, and he plays them well. His popularity in the United Kingdom is growing, if that is possible; at any rate, he is generally beloved and always heartily welcomed wherever he goes. His readiness to adapt himself to any condition or circumstance tending to bind the people to the throne is at all times noticeable, and he gives freely of his services in every good cause to which he is invited to contribute a part.

An example of his willingness to please the people was recently furnished at the great Scout rally at the Alexandra Palace, London, where His Highness appeared in an exact replica of the uniform of the Chief Scout, Sir Robert Baden-Powell, and took an active part in the big rally. There were between 30,000 and 50,000 Scouts, officers and cubs at the rally, every section of the kingdom being represented. The Prince was accompanied by the Duke of Connaught, who wore a similar uniform. The Duke of Connaught is President of the Boy Scouts' Association. The King's Scouts were inspected by Sir Robert Baden-Powell, Chief Scout, who was afterwards decorated by the French ambassador with the Legion of Honor.

One of the features of the gathering was the cubs' howl. Fifteen thousand Wolf Cubs, who took part with the Boy Scouts in the demonstration, gave a combined howl, which greatly pleased and amused the Prince. His Royal Highness made a speech, which was followed by three cheers for him, led by Sir Robert Baden-Powell, and the singing by the Welsh Scouts of "Land of My Father."

One of Caruso's Successors

Was Boxmaker in Indiana Eighteen Years Ago
Eighteen years ago a hulking young boxmaker named Arville Harold was working in a fruit jar factory at Muncie, Ind. He was married and had three children. People said he could sing. One day he started for New York with a letter to a theatrical booking agent. He got out of a day coach at the old Grand Central Station, carrying a "telescope," and with \$2 in his pockets. It was the night he spent for a room at the old Grand Union Hotel. Two nights later he was thrown onto the stage of the Casino Theatre in the place of a musical comedy success to sing the song that opened the second act. Today he is one of Caruso's successors at the Metropolitan Opera House.

Canada's Newspaper Production
The productive capacity of the Canadian newspaper mills will be increased about 10 per cent. next year, according to a survey of the newspaper paper situation. This will bring Canada's total production to 1,398,000 tons annually, as compared with a production of 1,500,000 tons from the United States mills.

A motion picture film 15 miles in length and which requires nearly 24 hours for continuous exhibition, has been completed in Italy, showing the principal incidents in the Bible from the Creation until the birth of Christ.

Peasants of those European countries where black bread is eaten usually have exceptionally good teeth.

Lions aged 12 years kept in captivity require one day a week without food to keep them in good health.

Rubber Roads New Experiment

Test Being Made on One of Old London's Busiest Streets

There is likelihood that rubber will be the street material of the future. The first experiment is to be made shortly in St. Martin's Lane, a portion of which the Highway Council are to pave with rubber blocks.

If this is successful, rubber will replace wood blocks and asphalt for the surfaces of other roads. The method employed is quite new. Rubber pads are embedded in concrete blocks of the same size as the wood blocks.

An experimental rubber-surfaced road in Southwark did not give the best results because the concrete below the rubber did not harden.

The essential of all good road work is a hard and solid foundation and this is to be obtained by using separate blocks, enabling the concrete to harden.

"We ought to know whether these rubber blocks will be a success, and we hope that our new rubber road will be equally long-lived."

A wood block laid from 12 to 15 years, and costs at the rate of about 55s. a square yard.

"Rubber blocks, which we hope will have a very much longer life and which are more resilient, sanitary and clean, cost 70s. a square yard."

"The rubber pads are being made for us by the Leyland and Birmingham India Rubber Company while the concrete blocks to which they are attached are made by our own workmen."

"The test will be a severe one, for St. Martin's Lane is one of the busiest streets in the west end."

Growing Dates In Arizona

Trees Brought From Egypt Thrive In Well Irrigated Desert

Man who is energetically making over Arizona with his skill and good water, now takes pride in another successful accomplishment. He is producing in the well irrigated Salt River valley delicious dates, not merely for home consumption but for shipment—an infant industry. And he isn't asking for tariff protection either.

The date palms, originally brought from Egypt, have been growing in Arizona for twenty years. The Agricultural Department of the University of Arizona at Tucson have carefully tested out 160 varieties. The names listed those of the Pullman cars. Here are a few from the date orchards of the Salt River valley: Deglet Noor; Khair, Birket el-Hagzi; Purdy Tadala; Maklum and M'Kentich Degla.

The date palms are beautiful in themselves, growing to a height of 60 feet, but especially so when laden with clusters of dates. Some will produce as many as sixteen heavy clusters. The unripe dates will out-pucker the green persimmon, but ripe and fresh, one ceases to wonder that it forms the staple food of the Arabs.

Germany Must Work Harder

Germany must work two hours more daily for 10 or 15 years in order to be able even to exist, the Imperial Economic Council was told by Hugo Stinnes, the industrial magnate, in a speech published by the Deutsche Arbeitszeit-Zeitung.

Herr Stinnes estimated that Germany must produce at least 200,000,000 gold marks more per month in order to live.

It is better to start right than to trace your steps.

Estimate Heavy Increase In Value Of Field Crops Over The Preceding Year

Motor Cars In Dominion

Figures From All Provinces In Canada Total 463,484

"The average revenue per car for motor licenses in Saskatchewan was the lowest of any province in Canada," said Hon. J. M. Ulrich, Provincial Secretary, quoting some figures just received from the Federal Department of Highways.

"Statistics compiled by the Federal Department of Highways give the average revenue per car for motor licenses as follows for the nine provinces of the Dominion," he continued. "Saskatchewan, \$12.48 per car; Manitoba, \$13.83; Ontario, \$14.19; Alberta, \$17.83; British Columbia, \$18.37; New Brunswick, \$20.05; Prince Edward Island, \$21.32; Quebec, \$25.37; and Nova Scotia, \$36.07."

"In the total number of automobiles, Ontario is far in the lead with 206,511 automobiles registered, over three times as many automobiles as any of the other provinces, and Saskatchewan comes second, with a slight lead over Quebec. Saskatchewan has 61,376 automobiles registered during the past year and Quebec 54,980. Alberta comes fourth with 40,292, Manitoba fifth with 38,332, British Columbia sixth with 33,359, Nova Scotia seventh with 14,376, New Brunswick eighth with 13,615, and Prince Edward Island ninth with 1,781. There were 81 automobiles registered for the Yukon Territory, making a total for the Dominion of 463,484."

Antarctic Explorers

Glad to Reach Home

Quest Was Not Powerful Enough to Combat Ice

The explorers who accompanied the late Sir Ernest Shackleton to the Antarctic on his last voyage have recently returned to England in the Quest, and they readily confess their delight and relief at being again at home. They have spent almost one year, and hardship and the depressed condition of the home market early in the year, have been holding up development plans, but now the commencement of the movement of the wheat crop, which has become easier and a number of manufacturers have announced they will go ahead with their original plans. Mining and pulp and paper industries are usually quick to get into production, and all sources indicate that the coming year will see an active period of expansion.

Since the death of Shackleton in the Antarctic last January, the explorers have been led by Captain Frank Wild. He believes important scientific results have been secured, and says these soon will be officially recorded.

In sixty-nine expeditions, south of the polar circle, the Quest has been a party achieved record for longevity. They believe they were there near land, judging from appearances as the water was shallowing rapidly. The fault of the ship was that she was not powerful enough to combat the ice. She was well equipped and had plenty of food, so that she could have carried on for some time had she had the necessary power.

J. Q. Rowett, who financed the expedition, was the first to greet the survivors of the Quest on their return. He believed they were there on their efforts and the overcoming of almost unmountable difficulties after the death of Sir Ernest.

Canadian Soldiers Remembered

Wreath Placed at Foot of Cenotaph in London, April 24

Canadian soldiers who fell in the great war were remembered during the Armistice Day observance ceremonies in London, when Field Marshal Earl Haig, acting on behalf of the Great War Veterans' Association of Canada, placed a wreath at the foot of the cenotaph in Whitehall, according to a cablegram from Earl Haig received at the Dominion Command Office of the Association.

Earl Haig, in his capacity as president of the British Empire Service League, placed a wreath on behalf of Australia, New Zealand, India and soldiers from the other British dominions. The G.W.V.A. is one of the associations comprising the British Empire Service League.

Alberta Leads in Coal Production

For the past two years, says a report issued by the Bureau of Statistics, the province of Alberta has held the premier position among the coal producing provinces of Canada, with Nova Scotia, the former leader, a close second, and British Columbia third, with Saskatchewan and New Brunswick following in order.

Church Sleepers Found

Sleeping in church used to be such a common habit that men had to be employed to walk about during the services and wake up the worshippers who had fallen asleep. In the seventeenth and eighteenth centuries money was often lent for this purpose.

Minnesota produces 60 per cent. of all the iron ore in the United States.

Canada's field crops for 1922 are estimated by the Financial Post to be worth approximately \$1,115,000,000, against \$995,381,570 in the preceding year, an increase of about \$120,000,000.

There was a substantial lowering of prices during the period under review, and a corresponding reduction in the scale of wages, with the result that farming conditions were in more or less unsettled state. With lower costs of planting, threshing and marketing the margin of profit on the wheat crop should be better than last year. However, the phenomenal yield of nearly all agricultural products this year, few decreases in value as compared with the previous twelve months are recorded. Increases are shown in wheat, oats, barley, rye, flax, buckwheat, mixed grains, and turnips, while peas, beans, corn (both husking and fodder), potatoes, hay and clover, alfalfa and sugar beets, register decreases.

The same authority roughly estimates the value of products of the grain, the sea-kitchen and the forest, including highly manufactured products or wealth from water-power developed, as slightly over \$500,000,000, or, based on a population of eight and three-quarter millions of people, a per capita value of about \$230.45. Agricultural products, of course, account for the largest share of the total, amounting to \$1,115,373,583. Livestock comes next with a value of \$756,750,000, followed in order of importance by stock and poultry, \$430,562,000; lumber, \$138,311,437; minerals \$117,325,437; dairy \$10,207,584; fisheries \$4,930,335; fur \$10,122,751; wool \$5,695,000; and tobacco \$2,400,000. These figures are obtained on 1922 Winnipeg average cost price basis.

The large grain crop in the prairie provinces will enable the farmer to get back on his feet again, make needed improvements on his farm, and leave him in a satisfactory position to start the new year. Many companies, owing to the tightness of money and the depressed condition of the home market early in the year, have been holding up development plans, but now the commencement of the movement of the wheat crop, which has become easier and a number of manufacturers have announced they will go ahead with their original plans. Mining and pulp and paper industries are usually quick to get into production, and all sources indicate that the coming year will see an active period of expansion.

Prince Satisfied With Ranch

Says He Has Received Good Reports From Alberta

The Prince of Wales, speaking at a luncheon at the Canadian Club in London, which was presided over by Hon. P. C. Larkins, Canadian High Commissioner, said it was on November 10, 1919, that he first came to the Dominion to embark for home at the end of a tour of the Dominion. The present occasion recalled his wonderful experiences in Canada and increased his hope that he would one day return to his native country.

November 15 was another anniversary, the greatest of all that he had observed throughout the Empire. He always would be proud of the fact that he had served with the Canadian Corps on Armistice Day. The Prince said that his small farm in Alberta was a great link between him and Canada and constituted an assurance that he would one day return to that country. He could not claim that he was raising his dollars, but quite recently he had received agricultural reports from the ranch. Breeding societies all over the Empire had offered to supply animals, but while he was grateful, he was compelled to decline, as he felt that the Government would soon be like a man's wife.

The Gulf Stream

A correspondent writes a surprising story about the influence of the Gulf Stream upon the climate. He says that there is a stretch of about ten miles at Achill Head, County Mayo, where the stream hits Ireland. This point is actually tropical, and bananas, palms and various forest flowers there as they do in the tropics, with a mile or so either north or south of this point has the cold, damp temperature of the rest of Ireland.

Another Field Discovery

An important discovery of gold is reported near Lake Opaskatika in the Quebec side of the Ontario-Quebec boundary line north of Les Quises, at which point the railroad is now being extended by the Ontario Government. The prospect is stated by reliable authorities to be so good that this territory may develop into an important gold camp in the not distant future.

STOVE FOR SALE—Second-Hand "Alaskan Queen" Heater, large size. Apply to The Enterprise.

Items of Local Interest

Be a good listener and you'll have a contented wife.

Following the line of least resistance is what makes bull men and rivers crooked.

At present frogs legs, squid, eels and blackfish bring big prices in the New York market.

In the British elections last week the Conservatives were victorious and Honor Law will lead by a clear majority over all in the next parliament.

When you have made your first home-brew on the kitchen range, just pour a little of it in the sink. It takes the enamel off, poor it all in the sink.

Manitoba has the largest deficit in her history, \$984,568 for nine months. The present farmers' government blames the last government—Liberal—for the failure to approve the various measures for increasing revenue which were introduced at the last session.

The post office department is making a big effort to induce people to mail Christmas parcels early, and asks all to remember that thousands of other people are mailing an unusual number of letters and parcels, too, at this season and if they all pile up together the last few days, it is impossible to get everything handled and delivered on time, and somebody is bound to be disappointed. Mail early and see that your friends get your Christmas greetings before the day's festivities are over.

Mark Twain was called upon to speak at a club dinner and took for his theme, "Honesty." He said when he was a boy at home he one day saw a cart full of melons. He was a boy—and he was tempted; besides he liked melons.

"I sneaked up to that cart," said Mark, "and I stole a melon I went into an alley to devour it. But—I had no sooner set my teeth into it than I paused; a strange feeling came over me—I came to a quick resolution. Finally, I walked up to that cart, placed the stolen melon where I got it from, and took a ripe one."

The Prairie Free Press of last week remarks: "One of the liquor-sneakers got on a spree the other evening and beat up a provincial constable. If the spotter had not been in the employ of the government he would have got six months in the pen." It is interesting to note that conditions in British Columbia are very similar in this regard to conditions in Alberta. In this province it is sometimes apparent as though there is no need of letters in the law when other means of force are available.

Sergeant Major Harrison, who for a few weeks only was in charge of a "house" rate west of Coleman, has been moved to another locality. The sergeant-major is the chap who through the remark "Four's you think you should be in the hospital?" inferred that he would like the opportunity of taking the law in his own hands and dealing with us in such a manner as to occasion hospital treatment. We made editorial reference to this on a previous occasion, and marked copies were forwarded to the proper authorities at Edmonton.

In speaking of ultra-modern young women it is no longer up-to-date to use the term "flapper." They are now called "Faster Eggs" because they are hand-painted on the outside, and hard-boiled on the inside!

The complaint is made that police-women are useless because of their tendency to marry and quit the job. Nothing like a little practice in grabbing men.

FREE BOOKS ON

CARE OF CHILDREN

The Alberta Division, Canadian Red Cross Society maintains at the present time a Health Information Bureau for the use of the citizens of Alberta who are interested in health matters and desire to be kept in touch with the latest thought of medical research experts, and the development of science along health lines.

The pamphlet at the disposal of the public covers a wide range of subjects, the majority being written in popular style, proving not only instructive, but interesting reading for the woman in the home. Indeed here is much at present on the library shelves which it would be very easy to read who has a family of growing boys and girls. The great physician, Sir William Osler, says "What is required now is education, not in disease, but in health." The death rate of modern times is a reproach and an indictment of any civilized country, and is due to the criminal ignorance of those whose duty it is to carry out the race that has been lacking has been the instruction in health which is the right of every prospective mother. Those who would learn have been frequently unable to purchase the cost books on the care and management of infants written by child experts.

Today no one need be in ignorance of the proper way of caring for infants.

The greatest mother in all the world, alarmed at the seeming indifference of the public to the crying crime of infant dying like flies before they attain one year of life has determined to do something in the matter. She is anxious to place in the hands of the girl mothers, or in need of all mothers a simple series of booklets on infant care. The information has been selected with the greatest care from the best of authorities, not only in Canada, but in other countries. The selection is that which is the best suited to Canadian life and ways of living. The following are the titles: Care Before Birth; Breast Feeding; Bottle Feeding; Weaning the Baby; Feeding Habits During the Second Year; Food for Children from 2 to 6 years. Every mother in Alberta should get copies of this Red Cross series. They are free of charge and will be mailed to any one on receipt of postcard requesting same. Women's societies and other organizations may obtain them in bulk for distribution among their members who will find excellent material therein from which to prepare papers to read at their monthly meetings. All parcels are mailed free of charge. Apply Alberta Division, Canadian Red Cross Society, O'Sullivan Block, Calgary.

When your head feels like the devil
And you can't walk on the level,
And your feet won't track no matter
how you try,
And you're making a noise like
thunder—
You will realize your blunder,
When you're pat exclaiming, "Your
wife, come let us fly!"

When your head feels bad and your
eyes are queer
And your thoughts rise up like foam
on beer,
When your knees are weak and your
breath is strong,
And you laugh like hell at some fool
song—
Then you're drunk by gum—you're
drunk.

St. Peter was examining a newly
arrived immigrant seeking en-
surance. He had given his oc-
cupation as editor and publisher.
Following is a transcript of the
testimony.

Q—"Ah, yes, of the world's
greatest newspaper?"

A—"No, sir. Just a common
rag."

Q—"Circulation the largest in
your city?"

A—"No, sir; oh, no, indeed.
One of the smallest in the coun-
try."

St. Peter—"You'll do. Pick
your paper."

CANADIAN NATIONAL RAILWAY ANNOUNCE WINTER EXCURSIONS

Another year is approaching to its close, and with it the thoughts of many are turned to the old folk at home. The festive season brings with it memories of long ago—cherished memories that can never fade away—and even though it may only be a short time since one last paid a visit home, thoughts of another trip will not be denied.

Extra preparations by the Canadian National Railways have been made, to carry the exodus of people who will make a visit to their old home. No railway is better equipped for the conveying of people this season than the Canadian National. For several weeks officials have been preparing for heavy travel during the next two months, and this railway now offers unsurpassed service.

It does not matter where one wants a visit. An opportunity is presented to all. If it is in Eastern Canada, the Canadian National will have on sale, from December 1st to January 31st, tickets at greatly reduced fares, good for return within three months and stopovers are permitted at most points en route. Provision has been made for an extension of return limits beyond three months, upon payment of a small additional amount.

During the month of December, and up to January 31st, there will be no low excursion fares by Canadian National Railways to certain points in the Central States—Duluth, Minneapolis, St. Paul, Milwaukee, Chicago, Cedar Rapids, Council Bluffs, Des Moines, Fort Dodge, Marshalltown, Sioux City, St. Louis, Kansas City, Omaha, Watertown.

Reduced fare excursion tickets will also be on sale to the Pacific Coast (Victoria, Vancouver and New Westminster) each Tuesday and Thursday in December and January, and February 6th and 8th, with final return limit April 15th.

No matter where you have planned to spend your vacation or when you expect to go, consult a Canadian National man. You will find him to be a walking encyclopedia of travel information. He will help you to arrange your tour, reserve accommodation, sell you a THROUGH ticket—in fact, make all arrangements and relieve you of all anxiety of looking after the details and the planning of a complete winter tour.

With all these facilities at hand, at very reduced rates, there should be few, if any, in this district who will spend a lonely Christmas.

A Smart Youngster

"Mummy" said little Mabel, "what are those little crinkly things in your hair?"
"Oh, those are called waves," said mother rather proudly.

Mabel turned round, and regarded her father solemnly; then she went over to him and patted his bald head.

"Mummy's got the waves," she said to him, "and you've got the beach."

The women say that they will wear their skirts longer. Probably six weeks in place of a month.

A reader wishes us to define free verse. Free verse, my son, is what we clip from other journals.

The Feel of Good Clothes

It is as gratifying as the appearance. Men who are garbed in our made to measure suits and overcoats are continually asked, by their less comfortably dressed friends, "Who is your tailor?" It costs little more for good clothing than for common sorts as our moderate prices will show you.

Wednesday, December 6—

"TURN TO THE RIGHT"

A big picture, founded on John E. Golden's big Broadway stage hit. A play written by Winchell Smith and John E. Hazard. A Rex Ingram Production.

Thursday's Programme will be announced on Screen.

We regret that we have not space this week to announce the late of teams and skil(l)ers for the season's curling.

We now see where Bussano people can save money. It is a dollar less for a season skating ticket on the Blairmore arena.

The town of Coleman will likely purchase the old water system from the International Coal & Coke Co. for a consideration of \$13,000.

A pleasant surprise party was given Mrs. W. Howland evening by about twenty of her friends. It was in honor of her birthday and she was presented with a fine leather purse.

A grand dance will be given in the Oddfellows' hall at Bellevue on Friday, December 8th, under the auspices of the Bellevue Hockey Club. See bills for further particulars.

James Strachan, a Fernie boy scout, aged fifteen years, and son of Robert Strachan, senior inspector of British Columbia mines, was accidentally shot and wounded by his father while deer hunting south of Eiko last week. It is thought the boy's arm will have to be amputated.

Sunday morning's service at the Union church was addressed by Rev. James Denson, of Calgary, who is temporarily representing the British and Foreign Bible Society. Mr. Denson is an able and very interesting speaker and his discourse was listened to with much interest. At this service a local branch of the society was formed, with Mrs. W. A. Henderson as president and Miss Louise Knappan as secretary-treasurer. The executive includes Mrs. J. R. Warner and Mrs. Spurgeon McKay. Rev. Dr. Ferguson, who was present, addressed the young people briefly, extending to them the heartfelt thanks of the Presbyterian Board of foreign missions for the splendid contribution of the past year, amounting to about eighty dollars. The Union Sunday School raised for missions during the year practically \$250, which was divided equally towards the mission funds of three denominations, represented in the union—Presbyterian, Baptist and Methodist. The Sunday school enrolment for the year was slightly short of 300, so that the contribution for mission work exceeded one dollar per pupil, a splendid record.

CLARESHOLM HIGH SCHOOL DEBATES WIN FROM HILLCREST

The debates on Wednesday evening which were held simultaneously at Clareholm and Hillcrest were productive of considerable interest, and the local High School representatives are to be complimented on their excellent showing, as they were adjudged winners at both places. The debate in Clareholm was held in the Methodist church which was filled to capacity. Mr. H. O. Haslam filled the position of chairman acceptably, and in addition to the debate the program included choruses by Grade II pupils and a piano trio by Misses Simpson, Guy and Reynolds.

The Hillcrest affirmative team were Miss Alice Taylor and Mr. Donald Grant, and they were opposed by Misses Kathleen Holmes and Edna Strangways. The argument on the topic "That Chinese and Japanese immigrants should be stopped," was vigorously conducted and while complimenting both teams on their showing, the judge, Mr. E. A. Corbett, M.A., of the department of extension, Alberta University, awarded the decision to Clareholm by a margin of five points.

At Hillcrest Clareholm was represented by Miss Helen Brown and Mr. Charles Sharples, both of whom excelled themselves in the clearness and vigor of their addresses. They were opposed by Messrs. Norman Taylor and Clarence Smith, of Hillcrest High School. The decision of the judge, Mr. Patten, of Edmonton, was in favor of Clareholm by a score of 85 to 80 points.

The debate was followed by a banquet, and all arrangements at Hillcrest for the reception of the visitors were most cordial.

The next debate in the series is during the first part of January.

—Clareholm Review-Advertiser

Three persons are known to have perished in the fire which destroyed St. Boniface college near Winnipeg.

It is stated that up to November 15th, the Canadian Pacific Railway had moved twenty-seven million bushels of grain in Alberta.

We understand that about \$160 was raised this week in Blairmore to assist the work of the British and Foreign Bible Society.

The fifty fifth annual meeting of the Cape Breton Curling Club was held last week. The present good-standing membership of the club is 54.

Mrs. Bolton and family, of Oreston, B. C., desire to thank most sincerely their many friends in Blairmore for assistance and expressions of sympathy with them in their recent bereavement.

Suit for a salvage fee of \$30,000 has been entered by the Reid-Newfoundland Company against the owners of the steamer Bethlehem, which was towed to port in a leaking and disabled condition by one of the Reid steamers.

The cup trophies given to the local adult male curling club for competition by Mr. J. E. Upton, our local tailor, are now on exhibition in the office of the Crown's Nest Pass Motors. They comprise one large silver cup and four small cups, all beautifully engraved.

There was general regret expressed at the departure of the town's landmark on Monday evening, in the person of Henry Walter, who for over thirty-five years has domiciled on Canadian soil and who for some fourteen years has been the genial porter at the Cosmopolitan hotel. Henry goes direct to St. John, N. B., to sail for Antwerp, Belgium, about December the 10th, thence on to his old home in Germany. He left Germany to avoid the conscript about forty years ago. At that time he was very much in love with a German lassie, who, he claims, is still on the shelf and awaiting the return of her lover.

Cowley Happenings

Mrs. Latta just present a Calgary visitor.

James Connor, of Wrentham spent the week end here with his family.

The north is blanketed with new fallen snow and still it continues to come down fast.

The Chautauque will hold six entertainments here this week, beginning on Tuesday and ending on Thursday evening.

Lim Hong, who has been occupying the W. E. Tutton store for a few years, has moved to the store under the Masonic hall. He will resume his mercantile and restaurant business there.

A very large crowd attended the whist drive held here on Wednesday evening last. The winners of the first prizes were Mrs. Hanson and Mr. Hartsel, of Lundbreck. The supper was furnished by Miss Nellie McWilliam and Miss Bernice Anderson.

A farewell dance was held here in Tustin's hall on Saturday night, in honor of Mr. and Mrs. B. O. Morrow, who are leaving recently for Cetera, where Mr. Morrow will resume his duties in the bank. The large crowd present showed the high esteem in which Mr. and Mrs. Morrow were held. They were presented with a gold watch and leather golf bag each. They will be greatly missed here. Mr. Morrow has always taken a keen interest in helping to promote public interests, such as school fairs, etc., during his six years' stay with us, while Mrs. Morrow was well and favorably liked by all who knew her. Since we have known them, social functions seem hardly complete without them, but what is our loss will be the gain of the community to which they are going. We join in wishing them success in their new home.

Mayor McLeod is spending the week in Calgary.

Mrs. Delbert Ennis is confined to her home through illness.

The death rate at Halifax for the past year dropped fifty per cent.

Miss Mary McSwiney, who has been hunger striking in Mount Joy prison, was released on Monday.

Frank Hogg, of the King Edward hotel, Pincher Creek, was last week fined \$300 and costs for serving liquor, and John Hall, of the Arlington hotel paid a fine of \$200 and costs for similar offence.

No one came forward to lay claim to the ten thousand dollars' worth of liquor captured at Macleod last week, so the whole amount has been confiscated to the government.

Charlie Lee, a Nobleford Chinaman, paid a fine of \$25 and costs on a charge of endeavoring to defraud His Majesty by using for postage a three-cent stamp which had already been used.

C. Sansom, principal of the Edmonton normal school and formerly inspector of the Macleod District Inspectorate of public schools, has resigned his position as principal because of differences with the department of education. He will continue as a member of the staff of the Edmonton school.

Joseph D. Matheson has been appointed crown prosecutor of the judicial district of Macleod, to succeed J. W. McDonald, K.C., who resigned because of difference of opinion between him and the attorney-general on the conduct of the Piccasallo trial.

Mrs. F. E. Harrison has been released on suspended sentence on the charge of pointing a weapon at her husband. She was required to furnish bonds to keep the peace and it is understood that a separation agreement is being reached and that she will leave the district.

Local and General Items

For funeral flowers phone 212, Crow's Nest Pass Undertaking Co.

If some sermons were as broad as they are long, we should all be better off.

An undertaker is a man who follows the medical profession and the dealer in speed cars.

Fines aggregating \$1600 were gathered in last week through liquor raids effected at Clarendon.

Skating rates at the Bassano arena for the season are: family ticket \$7.00, adults \$5.00, children \$3.00.

A particularly fine lot of Christmas Greeting Cards at The Enterprise office. Make your selections now.

A concert was given in the opera house at Coleman last night, under the auspices of Holy Ghost Catholic church.

Every organization in town but the knackers will be represented by a hockey team on the Blaimore Arena this winter.

Correct this printer: "After five years of married life he spilled the catchup on the tablecloth and his wife smiled sweetly."

The Detroit News remarks that the Soviet government has accomplished one aim. It has perfected the nationalization of poverty.

Editor Russell hopes to carry on the great work of the late Bob Edwards with the Calgary Eye Opener and put out his first issue last week.

You can't blame a woman for being suspicious when she finds her husband's clothes and finds a beer opener and a button hook on his key ring.

The town of Stettler is about the latest to undertake to build a closed-in arena, to cost in the neighborhood of ten thousand dollars.

The air is so clear in the Arctic regions that conversation can be carried on easily and without telephone apparatus by persons two miles apart.

"I believe in absolute candor," "I don't," declared Miss Cayenne. "My knees incline to knock and my calves are thin. I prefer to wear my skirts longer."

This startling advertisement recently appeared in a town newspaper: "The ladies of Plum Street church have discarded clothes of all kinds Call at 44 North Plum Street and inspect them."

Dr. Wilson Herald, ear, nose and throat specialist, will be in Blaimore on Thursday, November 30th, and can be consulted at the hospital for a few days.

The greatest sin people commit is looking for the sin in others.

Even some men nowadays are buying their eyebrows and complexions from the druggist.

Michel and Natal have combined to erect a cutting rink, to cost in the neighborhood of \$5,000.

A dance will be given in the Union hall at Frank on Monday night next under the auspices of the Blaimore band.

Mrs. James McLean, of Lundbreck, was a visitor here the early part of the week with her parents, Mr. and Mrs. S. Ennis.

When a woman is kissed on one cheek, should she turn the other? Answer—No, certainly not. She should turn only about half that far.

C. W. Pickup, druggist at Barons, was arrested recently on a charge of unlawfully selling liquor, and was fined \$200 and costs.

It beats all how surprised a girl can appear when the question is popped—after she has been preparing for it for six months.

There died at the Vancouver general hospital on November 16th, Florence, only child of the late Thomas Waklin, of Coleman aged thirteen years.

A bazaar given under the auspices of Coleman Women's Institute, realized over one thousand dollars, practically all of which has been handed over to the Arena Company.

Jay Todd, proprietor of the Queen hatchery at Seattle, purchased five White Leghorn hens for \$2000. Some of our local "chickens" should note this fact and go south west from here.

When you tell a girl you are done with her trifling and that you will go away and leave her forever, anticipating that she will pour her lips, fall on your shoulder and sigh "please don't," isn't it exasperating to have her burst out laughing at your painful, pitiful expression?

Rev. Dr. J. T. Ferguson, superintendent of missions for the Presbyterian church, was the preacher at the evening service at the Union church on Sunday last. The church was crowded to standing room and all were delighted with the forcible address of Dr. Ferguson. The choir of fourteen voices rendered a couple of very pleasing selections.

COLEMAN HAS \$300,000 FIRE

William Machin, Engineer, Victim.

Fire broke out at an early hour this morning in the power house of the International Coal & Coke Co., at Coleman, and in a very short time the whole plant was reduced to smouldering ruins.

The origin of the fire is not yet determined, but is believed to have started from defective wiring.

William Machin, engineer on shift at the time, met death in the flames. He was seen to come out, but returned and could not be recovered. He was about 27 years of age and a member of Coleman Lodge, I.O.O.F. He leaves a young wife.

The loss to the International Coal Co. is roughly estimated at \$300,000, no doubt mostly covered by insurance.

As a result of the fire, Coleman is without electric power today.

LADIES' HOCKEY

CLUB ORGANIZED

At a well attended meeting of ladies at the Greenhill hotel on Friday night last, a ladies' hockey club was organized, to be known as the "Blaimore Victorias."

The officers elected are: Honorary President—Mrs. Raoul Green.

Honorary Vice-Presidents—Mrs. G. A. Vissac, Mrs. H. Gibeau, Mrs. H. Burns.

President—Mrs. W. Bird.

Vice-President—

Secretary-Treasurer—Miss Jean Kemp.

Manager—Mr. W. W. Scott.

No small amount of enthusiasm was expressed and the new club will start out with a team in which will be placed considerable confidence. Quite an amount of good material is available, and the general opinion expressed is that Blaimore will have a team of ladies that will show 'em all a thing or two in real fast hockey.

The executive feel that it would not be good policy to make personal appeal for funds to start with, but the idea has been accepted to allow tags to be sold on Saturday next for the purpose of raising funds. The new club will have to go to a considerable expense in the purchase of uniforms, etc., and it is thought that if everyone will look kindly upon the tag-day, no further appeal will be necessary.

The team will be chosen from the following: Peggy Penman, Annie Penman, Jean Kemp, Vera Kafory, Elizabeth McLeod, Lillian Evans, Mildred Passmore, Sarah McVey, Gwen McDonald, Flora Warner, Lillian Turner, Bessie Passmore and M. Kafory.

The adopted colors are blue and white and it is worth your mite of a contribution just to see these cup challengers appear in their hockey robes, so COME THROUGH ON SATURDAY AND HELP THE "VICS."

The next meeting of Crow's Nest Chapter, I.O.D.E., will be held in the parlor of the Greenhill hotel on Tuesday next, December 5th, at 7.30 p.m. All members are requested to attend.

Mr. Hunter, representing the Great West Life Insurance Co., was in town during the week. Mr. J. B. Harmer is local agent for the Great West.

The Enterprise requests its friends to send items of news when they are fresh. We don't like to publish a birth after the child is weaned, a marriage after the honeymoon is over, a death after the widow is married again, nor a notice of an entertainment when the job work is done elsewhere and the editor is charged for admission.

PICCARIELLO CASE

OPENED MONDAY

The trial of Emilio Piccarillo and Mrs. Lassandro, charged jointly with the murder of Constable S. Q. Lawson at Coleman last September, opened before Mr. Justice Walsh in the Calgary supreme court on Monday.

Most of the evidence for the Crown taken thus far is practically a repetition of evidence taken at the preliminary hearing. It is thought the case for the Crown will conclude today and that it will take at least two days to examine witnesses for the defence.

The case is being prosecuted by A. A. McGillivray, K.C., of Calgary, with whom is associated John D. Matheson, K.C., of Montreal.

The defense counsel are J. McKinley Cameron, of Calgary; J. E. Gillis, of Gillis & Mackenzie, Blaimore; and J. S. Herchmer, of Fernie, B. C.

WORLD-FAMOUS MILITARY

BAND TO VISIT BLAIRMORE

Music lovers will be delighted to learn that Blaimore has been included in the itinerary of the world tour of the famous Edmonton Military Band, which is starting out on an eighteen months' tour of the United States, Australia, New Zealand, the British Isles and parts of the European continent. Only two points in Canada are being included in this itinerary—Calgary and Blaimore. At Calgary last night hundreds of people were turned away and could not get to hear this wonderful aggregation, which won such popularity overseas during the great war. The Edmonton Military Band was without a doubt the finest band organization to leave Canada during the war.

By special arrangement, the Edmonton Military Band, 36 pieces, will appear at the Blaimore Opera House on Monday night next, and the programme will start at 7.30 sharp. Following about a two-hour programme, a dance will be given. The admission fee will be 75 cents for the concert and 50 cents extra for the dance. Music for the dance will be supplied by a special orchestra picked from the band.

Watch for the grand parade in the afternoon.
